Bharat Singh

★★★★★ Overall Review

Reviewed in India on 28 August 2023

Colour: Black | Style Name: Enco M32 | [Verified Purchase](#)

Sound Quality: 4.5/5 (M31 had better sound quality with superior codec)

Build Quality: 4.8/5 (Great build quality, water proof and good for rainy days)

Comfort: 3.5/5 (Pretty light weight but the earpiece is slightly enlarged as compared to M31 which was way more comfortable than M32 also you cannot remove the fins which can be uncomfortable at times)

Battery: 5/5 (Great battery life will easily last 2-3 days of heavy uses better than M31 which used to last 1 heavy day)

Overall Rating: 4/5

If you get M31 get that the battery life is less but Comfort and Sound Quality is unmatchable.

★★★★★ Review about oppo enco m32 after using it for a month

Reviewed in India on 23 July 2023

Colour: Black | Style Name: Enco M32 | [Verified Purchase](#)

Good:

1. Battery life

Firstly, I will talk about battery life, mostly I use 5 hours daily and it lasts 4 to 5 days even the battery is dried out; it only takes 7 to 9 minutes to full charge.

2. Sound quality

If you're talking about real sound quality without any unnecessary bass in Realme and OnePlus (FYI I don't like the extra bass) if you're a base lover, you'll love it. I'm just saying there's not any overdone and the sound quality is crisp and clear.

3. Fit

Fit is great with an extra ear holder and it has very good quality.

4. It buds have very good passive noise cancellation; it can restrict up to 15 to 20 decibels.

Mid:

1. The dual device pairing is difficult; in this you have to press both volume up and down at the same time to switch between previously connected device and current one. It's good working between phone (Vivo V9)

★★★★★ Value for 💰

Reviewed in India on 13 August 2023

Colour: Green | Style Name: Enco M32 | [Verified Purchase](#)

The passive noise cancellation is quite good. This thing slightly boosts bass over treble but in a subtle way. I'd say battery backup is good. I haven't faced any connectivity issues yet. Buds are super comfy, fit well in your ear due to the hooks.

But my only concern is the durability of the wires. They look fragile and the neckband kinda slides more to one side while wearing but Hey! I'm new to this neckband thingy. I might be wrong.

Overall it's a no-brainer if you have ₹1500.

Rushit Jain

★★★★★ Budget friendly good neckband

Reviewed in India on 4 August 2023

Colour: Black | Style Name: Enco M32 | [Verified Purchase](#)

I recommend this product Oppo Enco M32 neckband for daily usage like running, gym, music lovers or calling non-stop those who are enthusiasts using daily usage.

- Decent look and built quality for iPhone and Android users.
- Just 10 minutes charging delivers more than 10 hours.
- Great bass and high-quality audio ANC if volume is high; it activates noise cancellation without any hesitation. No outside noise or fan or traveling that's cool.
- Sony's LDAC hi-res audio codec for HD sound quality on supported devices. This only has AAC codec.
- Battery life is 14-15 hours.
- It's budget-friendly with IP55 dust and water resistance with good battery backup on the right side. There is a USB Type-C charging port.
- Fast Bluetooth 5.0 connectivity. Small ear fins that lock in your ear by default. Ear won't hurt starting it. Hurts a little bit once its use to it will surely be normal.
- Just 33g lightweight can keep neckband inside denim or chinos jeans pants yes, it's also very flexible.

- Overall at this price range its a good choice just charge 10-12 minutes if battery is low please dont charge more as it's not requirements

★★★★★ Make sure you turn on phone's Bluetooth only after starting your neckband

Reviewed in India on 4 August 2023

Colour: Black | Style Name: Enco M32 | [Verified Purchase](#)

Today, my neckband has completed 1 year and 2 days. It is still working fine. Only problem is that I can turn on my smartphone's Bluetooth only after I have turned on my neckband otherwise the sound will be heard only through phone. It will show on your phone that you are connected but you won't receive sound on neckband. You will have to put your phone on the ears or speaker. That's the only problem. I have used this in mid level rains even heavy rains with little safety and it is still working. Very good product.

Edited on 7th August 2023: I don't know how but suddenly the above mentioned problem is also solved since last week.

Enjoy this product...

Edited on 21st august : Never faced that problem since then... It's a great product..
